

TWO POST LIFT

KEY FEATURES

- Complete central access
- 240 Single Phase Power
- Powder Coat Finish

PRODUCT INFORMATION

Top quality modern designed 2 Post Lift. made in our cutting edge factory with modern slap up-to-date feature packed design. Fully CE complaint, with 24 volt controls. Designed for modern low clearance cars in mind the low profile lifting arms need only 95mm clearance, and come complete with independent screw pad adjusters & van/ATV lift adaptors.

Lifting arms are asymmetric designed with a pair of two part and a pair of three articulated arms giving the user maximum flexibility on where and how you lift. The catches automatically engage when the lift is in use and automatically disengage when lowered to the ground. For when its needed there is a manual override built in.

The unit comes powder coated, providing a much more resilient finish and helps keep the unit looking smart. UK sales and spares back-up on hand with an installation service available too.
